PROFESSIONAL SUMMARY

Game Programmer and Game Designer with a Bachelor's Degree in Game Programming & Design and professional experience developing games and interactive experiences across PC, mobile, VR, and mixed reality platforms. Strong background in C#, Unity, gameplay programming, game design, rapid prototyping, Game Design Documents, level design documentation, UI design, audio implementation, monetization, analytics, and performance optimization.

Experienced throughout the game development process, from early concepts and gameplay prototypes to feature development, iteration, testing, optimization, and release. Shipped Content Creator Mansion on the App Store and Google Play, and experienced in developing playable ads using Luna Playworks. Comfortable collaborating with artists, designers, and developers to turn game concepts into polished interactive experiences.

CORE SKILLS

- **Game Development & Design:** Game Programming, Game Design, Gameplay Systems, Gameplay Mechanics, Game Concepts, Rapid Prototyping, Game Design Documents, Level Design Documents, Core Gameplay Loops, Progression, Game Balancing, UI Design
- **Programming & Engines:** C#, Unity, Unreal Engine, Object Oriented Programming, Design Patterns, ScriptableObjects, Dependency Injection, Async Programming, UniTask, Unity Editor Scripting, Custom Editor Tools

- **Multiplayer & Platforms:** Photon, Mirror, Multiplayer, Networking, PC, Mobile, VR, Mixed Reality, Magic Leap 2, Android, iOS
- **Development & Production:** Performance Optimization, Debugging, Profiling, QA and Testing, Git, Jira, Figma, Miro, Agile, Scrum

PROFESSIONAL EXPERIENCE

Gameplay Programmer | *Naphora, Riyadh, Saudi Arabia*

Oct 2025 – Jun 2026

- Developed gameplay systems and mechanics for Content Creator Mansion using Unity and C#.
- Contributed to gameplay design, including core gameplay loops, progression, mechanics, pacing, and player experience.
- Designed and prototyped gameplay concepts and mechanics, testing and iterating on ideas throughout development.
- Created custom Unity Editor tools that improved content creation and iteration workflows for the development team.
- Implemented monetization features, including advertising, in app purchases, and third party SDK integrations.

- Worked with AppLovin and ironSource as part of advertising and monetization development.
- Developed playable ads using Luna Playworks, with experience creating interactive advertising experiences.
- Worked with Firebase Analytics, Remote Config, and A/B testing to support game iteration and development decisions.
- Improved runtime performance through profiling, draw call reduction, texture optimization, debugging, and optimization across devices.
- Contributed to UI implementation, gameplay feedback, VFX, audio systems, and features supporting the overall player experience.
- Participated in testing, bug fixing, build preparation, and release processes.
- Contributed to shipping Content Creator Mansion on Google Play and the App Store.

Junior Game Developer | *Power Interactive, Dubai, UAE*

Sept 2023 – Sept 2024

- Developed and delivered interactive features as part of a multidisciplinary development team.
- Built and iterated on gameplay and interactive prototypes to test ideas, interactions, and user experiences.
- Contributed to projects involving VR and mixed reality technologies.
- Gained experience with Magic Leap 2 and mixed reality development while working alongside senior developers.
- Contributed to gameplay programming, interactive systems, prototyping, debugging, and feature development.
- Collaborated with developers and other team members throughout the development process.
- Contributed to code quality and development process improvements.

Client Advisor | *NEOM, Sindalah Island, Saudi Arabia*

Oct 2024 – Aug 2025

- Consistently exceeded sales KPIs, including UPT, ATV, and CRM acquisition targets.
- Built and maintained client relationships through personalized communication and service.
- Developed strong communication, problem solving, and customer experience skills in a professional environment.

Sales Agent | *Middle East Film & Comic Con, Dubai, UAE*

Seasonal, 2018 – 2024

- Delivered customer service, sales, and promotional support across multiple annual events.
- Worked effectively in high volume environments requiring communication, teamwork, adaptability, and problem solving.
- Supported positive customer experiences across seven consecutive events.
